What is a Go Local! City Discovery?

Our aim is to allow travelers to get to know and love Budapest as the locals do. We believe that it is not only the place, but also the people who

make travelling unforgettable, and that the real way to get to know a destination is to live and share personal experiences with the locals.

In the company of your underguide, besides the must-see sights of your choice, you will discover a slice of the 'behind the scenes' Budapest, off-track places that the locals like the most: districts, markets, shops, bars, buildings, parks etc. Besides the cultural-historical approach, your underguide will also introduce the curiosities and 'never-before heard' urban legends of the city.

The route and theme

The exact route, departure, arrival and timing of your Go Local! City Discovery depend on you. Share your interests with our coordinator so we can build you a tailor made route, or pick from the favourites of our travelers:

- Go for a general overview of Budapest that gives you plenty of ideas on what else to do in Budapest for the rest of your stay.
- Art nouveau, Hungarian fashion and design, latest trends in gastronomy and Hungarian wine culture, retro themes, Jewish heritage 'then and now', Budapest Soho and Palace district are the most popular themes among our travelers.

We prepare your tour and continue with the prepared itinerary only if you wish to do so. If, on the spot, you'd rather feel like going a different way, or you discover something that you would like to spend more time at, our underguides are all trained to adapt to your modified interest during the program.

Interactivity

A Go Local! City Discovery is never a 'one man show' given by your underguide. It is all about an exchange of ideas, a multitude of questions to discuss, small cheer up games and an unforgettable personal experience while you get to know Budapest and your underguide better and better.

Better and better restaurants, street food vendors and even sweet shops are opening every day, all over the city, and are attracting lovers of gastronomy and passionate gastronomists, from all over the world.

For an appetizer, taste the Lángos. For the main course, eat grilled sausage standing at the 'Hentes'(Butcher's), or a big portion of Stuffed cabbage. Taste Unicum or Pálinka in a famous ruin bar, and wash it down with the most surprising local snacks: zsíroskenyér and a 'fröccs' (wine spritzer). Finish the day with a typical cake in a lovely classic café, or with a kosher cake in a famous patisserie of the Jewish district. On the way you can also visit culinary and artisan chocolate shops.

These culinary 'wows' are among the most interesting cultural differences that we cater for.

Don't eat before your tour, because we will take you through 3 stages, which includes all the above-mentioned food to let you taste as much of the Hungarian specialties as you can take.

The Challenges

The game's main target is to solve the 2-3 tasks which your group receives at the beginning in the most creative and funny way. The challenges and rules below are selected based on the past years' experience, the most beloved and chosen tasks by our clients.

PICTURE HUNT

The group members have to be the 'stars' of the pictures and should be doing something that is very typical to Budapest (driving a public bus, be a waiter in a local bar, be a salesman in a local shop, be a ticket controller on a tram... – we have encountered many amazing results, so be creative!). Do something that normally only the locals do.

HEY BIG SPENDER

Do your participants know everything about finance, banking, sales or purchasing? Here comes the time to prove that they are the best spenders! Everybody receives a light budget: the actual value of € 1. The task is to spend it during the program on the most typical and funky local things that guests will find. The rule is that it has to be typical to Budapest or Hungary and that you can't add your own money to the budget, the rest is up to participants– surprise us!

TEAM BUILDING & CITY DISCOVERY

CITY QUIZ

The group receive a question, the answer hidden in the city, on the walls, inside of buildings or even up on the roofs. Your team have to work together to find the correct answer during the sightseeing tour.

Contact our coordinator and tell us about your groups' characteristics, or the goal of your meeting in Budapest, and we will suggest personalised challenges for you, with unique themes for the pictures, or even a tailor made quiz just for you.

At the end of the tour, groups meet again, we project the answers, the photos, the products, hear explanations, sing the new rhythm or perform anything else related, and then a jury or a vote decides which the best team is. The winner gets a cool local award. Technical equipment is provided by UNDERGUIDE.

Urban Treasure Hunt (Outdoor)

Buda Castle Hill

TRANSPORTATION walking and public

RECOMMENDED SEASON spring, summer, fall

APPROXIMATE RATES from € 39 / person

Treasure hunts are always great fun, especially if when combined with the discovery of a new city – in our case Budapest. We suggest this game to groups who prefer to discover things individually – still of course with our guidance in the background – and in a playful way.

The group will be split into smaller teams (3 to 8 people/team), all teams receive secret codes and indices. Their task is to find the treasure, and put together the pieces of the puzzle, hidden around the city centre. Your team may already have visited Budapest, or they may all be newcomers – regardless, they will have the same fun!

Decoding, solving riddles, discovering hidden chests all around the city in the crossfire of watching eyes everywhere. Although in this game there is no guide to accompany the group, among the maps and secrets, the teams will have the chance to get to know the centuries-old history of Budapest.

What's hidden in the middle of a sculpture group, between the greenery of a bush next to a playground, or in the nooks of a church? Every secret treasure can be found, if the team is fast and dedicated! Work together, convince, compromise, be the best treasure hunter there is! The treasure hunters can discover the secret face of the city, and get to the coveted finish by using their flair, riddle-solving ability, and their intuitions.

At the end of the program, all teams meet again in a cool bar in Budapest, where everybody is our guest for a drink. The winning team is announced, and awards are given out by our coordinator. All participants will get a small souvenir from the program, but the award goes to the quickest ones who in turn are the winning team!

DURATION different versions (and levels of difficulty) from 2 hours to 2-3 day long conference length
GROUP SIZE from 10 to 500+ guests
POSSIBLE LOCATION any location – complementary game during events, dinners, workshops /in or outdoor
TRANSPORTATION not needed
RECOMMENDED SEASON any season
APPROXIMATE RATES from € 9 / person

Please note that Bloody Budapest is a fun complimentary program for company dinners or parties or can accompany a longer workshop for several days depending on level of difficulty. Bloody Budapest is a team building game with fake 'murders'. The point is that everyone gets a task (a 'way of killing' – ex: Make Martin taste your cocktail...Sing a song together with Susan or simply borrow a pen from Peter...) and the name of a colleague ('the victim'). You have to make an elaborate and creative plan to make your colleague do this task – of course, without him/her noticing it! If you succeed your 'victim' is out of the game i.e. 'dead' and you take over his/her task. There can be only one in the end! But take care while planning your murder... you are hunted by someone as well...

It is an excellent game for participants who did not know each other very well before to get acquainted with each other (the first task is to find your victim and get in touch with him/her without getting suspected) and a unique team building exercise to support self-organised team work, as for most tasks, you will need helpers.

All games are handled onsite by our coordinators.

OPTIONAL EXTRA SERVICES

The 'killer tasks' can be adapted to the location or event theme.

Aaand Action! – Film making and Flashmob programs

Precision, timing, team work and creativity have never been as important anywhere, as in the film industry...The challenge is big, time is short and everybody must be working 200% to reach the dream result together!

Shortcut, Clip Remake or Ad Shooting (Indoor or outdoor)

DURATION different versions from half to whole day

GROUP SIZE from 50 to 200+ guests

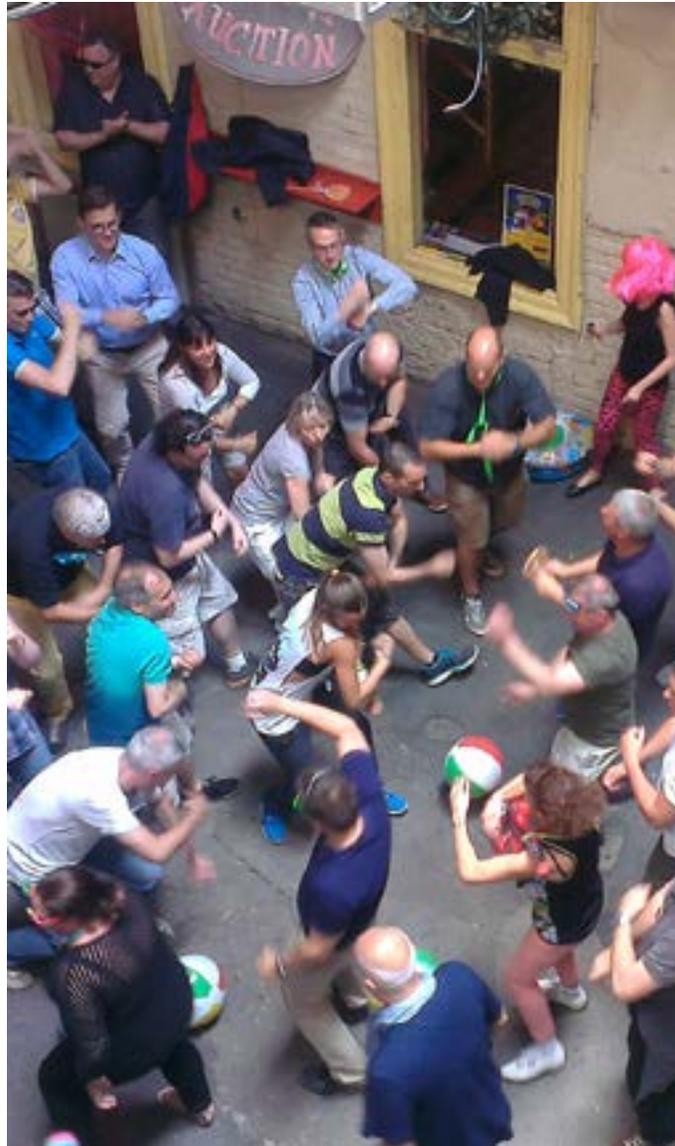

POSSIBLE LOCATION various locations or your original conference/event venue/in or outdoor

TRANSPORTATION not needed

RECOMMENDED SEASON any season

APPROXIMATE RATES from € 59 / person

Generally an AD shooting needs 1-2 weeks of preparation and at least 2-3 complete days of shooting, as professionals work on and realize every little element of those eye-catching 30 seconds. This time your entire team participates in making a complete shooting, (from the set building, to the makeup, and even the special effects), an AD, a clip, or just a short film in no more than a few hours – it's almost a new Guinness world record!

Dresses and props will all be available for the guests as all roles – director, PAs, makeup artists, stylists, actors, camera assistants, etc – will be 'played' by participants, depending on which

role they picked at the beginning! UNDERGUIDE will have prepared the entire works' creative and time schedule and will control all the work flow to make things run smoothly. Professional equipment and support teams will also be there to help teams work, but the film has to be implemented by the people of the company.

'Backstage' photos can be presented at the end of the program, while the final short or clip can be presented on the day after, following some post-shooting technical work, and cutting by professionals. The end result can also be used and shown at further company events – it will be such a great memory for everybody! The program highly enforces team work and is also a huge amount of fun!

The script and theme will be adapted to your group's profile. A few ideas that we have come up with in 2014:

- The company's insider AD for a new product or brand launch made by your team for your colleagues;
- Remake the song and clip of Queen's 'Tavaszi Szél', a Hungarian song that Freddy Mercury sang when they first came for a concert behind the Iron Curtain in 1986!
- Remake of Pharrell Williams 'Happy' in a 'Happy Budapest' version

OPTIONAL EXTRA SERVICES

- Werkfilm
- Onsite catering

Performance Shooting – Flashmob and Folk Dance (indoor or outdoor)

FLASHMOB

A classic flashmob is a group of people who assemble suddenly in a public place, perform an unusual and seemingly pointless act for a brief time, then quickly disperse, often for the purposes of entertainment, satire, and artistic expression. In our case we will not leave every detail to luck: we will have all necessary permits to occupy the area for an hour. To do the shooting, we will have prepared the 'act to perform', we will have coordinators and a director on site and we will have one of the best teams in Budapest recording the entire event!

The script and theme will be adapted to your group's profile. A few ideas that we have thought of in 2014:

- Company pillow fight, yoga positions, 'kill your mobile', dancing flashmobs, etc
- Flying drone camera shot formations (ex: company logo or 'merry christmas' formed by your team)

FOLK DANCE PERFORMANCE

There is no better way to have a personal impression of real traditional Hungarian music & folklore than to participate, and nothing better to have some laughter & fun, and to make your

team 'feel the common rhythm' then to take them for a dance, with everyone together!

Hungarian 'Csárdás' dance is well known worldwide, and there is an infinite variety of traditional dances to learn. Hungarian 'Táncház', aka 'community dance method' has been approved by UNESCO as a Hungarian Intellectual Cultural Heritage in 2011 – you want to see real local folklore? Come and dance!

Dancers and teachers of one of the very best Hungarian Folk Dance ensembles - will teach your group a dance to traditional 'hot' Hungarian rhythm and a simple song for 'advanced participants'! Don't be afraid: we believe everybody is talented enough to have some fun and it will not be more serious than that – it's all for fun! The Performance will be shot, resulting in a cool movie where all of your team (200+ participants possible) dances will be submitted to you a day later, after some post-editing technical work. A souvenir for life!

OPTIONAL EXTRA SERVICES

- Traditional attire rental for participants
- Live music to accompany dancers
- Flashmob style presentation of the performance at the end of the program
- Werkfilm/clip of the activity
- Folk show by professionals before or after the program

A Dragon Boat is a very long and narrow canoe-style, human-powered boat. It is now used in the team paddling sport of dragon boat racing, which originates from China from over 2000 years ago. During this program, the guest will be divided into teams of 20 people. The challenge will be organized among the teams, in an elimination style race system.

At the beginning of the program the guests have half an hour of instruction, a safety session, and a short practice. By the time all of the teams find their rhythm and race speed, the

challenge on the Danube can begin! Teams can compete in different type of races. Each race covers approx. 200-300m, so it is a real contest among the teams, but doesn't make everyone too tired.

A rich picnic with great Hungarian dishes and drinks can be the greatest program before the award giving ceremony, under the sunny sky. This tour is absolutely environmentally friendly. It does not emit harmful gases, and while it is absolutely green, it is also an excellent fitness activity.

Pig Slaughtering is a traditional feast in some European countries, just as it has been for centuries in Hungary also. The atmosphere of this ritual is magical, for some maybe it will be a little bit naturalistic, but for sure it will become a lifetime memory for everybody. Traditionally, this event is held when the weather gets colder, deep in the lovely Hungarian countryside. Since it's an open-air program, you have to be prepared, but don't worry, you'll be warmly welcomed by our 'fence-ripper' spirit - pálinka - which will warm and relax you. For those who would like to see the actual slaughter, it's possible, you just have to wake up early and have an extra pálinka!

After the spirits, the work is started and all hands will be needed! You will be able to see how to make and season the traditional Hungarian black pudding and sausage, how to cut up the parts and prepare them for smoking, and of course, during the procedure for breakfast, you can taste a previous slaughter's ham, lard, and sausages with fresh homemade bread.

You'll have great fun eating, drinking pálinka and mulled wine till the end of the day in friendly and warm company. And the highlight of the day is just about to come: the feast is crowned by the dinner with roasted sausages and black pudding which will be the freshest and the most organic meat you've ever tasted in your life!

Feed the Hungry

DURATION different versions from 30 minutes to 4-5 hours

GROUP SIZE from 15 to 100+ guests

POSSIBLE LOCATION several possible locations

APPROXIMATE RATES CSR project rates depend highly on the final project chosen, so rates cannot be given in advance. Feed the Hungry programs are one-off events, resulting in a cheaper CSR program.

Option 1: Cold meal packaging

Do you know how much you can help during a simple conference coffee break? At our Cold Meal Packaging Station installed at your conference venue, your participants can volunteer to offer 5-10 minutes of their time and personally pack meals (sandwiches, fruits, etc) that will later be distributed by a homeless care foundation's street service professionals to those in need on the streets of Budapest.

Option 2: Hot meal cooking

If you are a small to medium group and you are really willing to enter a world that is usually closed to outsiders and really make a difference – this is your project. A homeless shelter will open its doors to welcome you in its very sensible environment, for a great cooking project. Our chef will teach your guest how to make a real authentic goulash or other Hungarian meal, while in the meantime you'll be cooking for 100+ homeless guests! An unforgettable experience and a way to really help and feel the result.

Youth Related Projects

DURATION different versions from 3 hours to an entire day program

GROUP SIZE from 15 to 100+ guests

POSSIBLE LOCATION several possible locations

APPROXIMATE RATES CSR project rates depend highly on the final project chosen, so rates cannot be given in advance.

Option 1: Cultural Programs with Kids

Sadly some local kids, especially those living in child care institutions, never get to see the wonders of downtown Budapest, never go to Museums, the Opera or the Circus. Your group can pair with groups of children and go for a sight-seeing tour, a boat cruise, a concert, or any other leisure activity together! You will discover a new cultural aspect of Budapest, while providing an unforgettable experience to these children.

Option 2: Challenge day at a Juvenile detention centre

These youngsters aged between 10 and 18 made a mistake in their early years. Today they live in a semi-secure institution, where they go to school and are taken care of, so that one day when they are out, they will have the ability to change their lives. UNDERGUIDE has developed a close partnership with some of these institutions, where a Challenge Day or a sport day can be held within the walls, with the participation of the inhabitants and your team members! Joining the children for an afternoon activity will be an exceptional experience for all your team members and will greatly cheer up the lives of these youngsters.

Green Projects

DURATION different versions from 3 hours to an entire day program

GROUP SIZE from 15 to 100+ guests

POSSIBLE LOCATION several possible locations

APPROXIMATE RATES CSR project rates depend highly on the final project chosen, so rates cannot be given in advance.

Option 1: Selective waste art & Land Art Projects

These projects are probably the ones which require the most creativity from your group. Based on the detailed plans of our landscape architects, with the manual labour and the creative ideas of your team, we will build a piece of art which will decorate the city or chosen park,

using natural and recycled material only. It is a fun team building activity, and you will also have positively contributed to beautifying Budapest!

Option 2: Kitchen Garden planting for and with local communities

Community gardens are useful in plenty of ways: they create communities, they help the poorer residents to get fruit & vegetables, and overall, gardening contributes to a better life of the town people while also producing many other positive effects. With the participation of your team, we will launch a community garden in a disadvantaged area of Budapest, where locals will also be invited to help during the first steps, as later they will be the ones who continue the project by taking care of their garden! Planting a community garden is the best 'planting' CSR project type: it is directly beneficial to the local community that you will meet, and it really encourages your people to work, as it has huge potential for continuation by the local community.

Tailor Made CSR Projects

If you are willing to organize a CSR event which relates specifically to your products or yearly company CSR goals, do not hesitate to contact us – we will be happy to build a tailor made program for you, whether you want to donate your products, be they storm windows, cable or the servicing of intellectual property protection worldwide!
